# From Awareness to Action

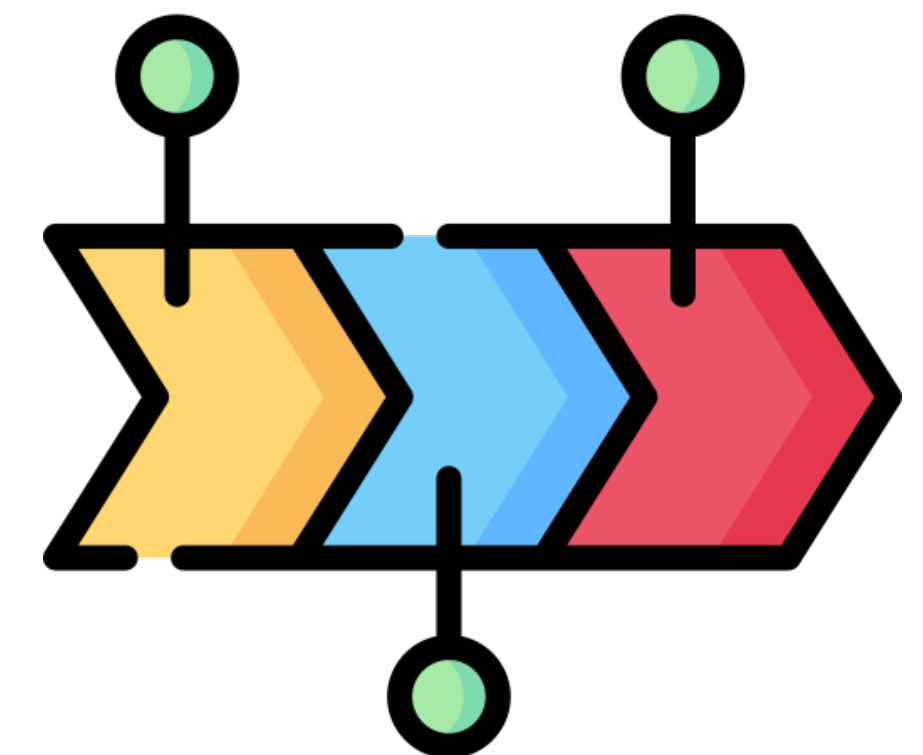

Empowering Change through Anti-  
Abuse Training

Gerardo Viviers | RIPE 87 | 29 November 2023

# What Has Been Going On?

- In 2021, the Anti-Abuse WG approached us
- The request was to create a training for LIRs that do not know about abuse handling
- In 2022, we developed a webinar
- In 2023, we started delivering the webinar, receiving good feedback

# Current Solution: Webinar

- Faster to develop
- Real-time Q&A, discussion and feedback
- Direct networking opportunities
- Trainer facilitates discussion

# The Downside...

- Time zone differences
- The content is only delivered once
- Reaching a wider audience would **require more live sessions and resources**

# Suggestion for the Future: E-learning

- Self-paced learning fits schedules
- Online removes geographic barriers
- Content ensures consistent training
- Analytics track completion rates
- Scalable, cost-effective training
- Centralised material updates, no sessions

# The Benefits...

- E-learning sustains momentum
- Complements live training from webinar
- Empowers change at larger scale

# The Questions...

- What does the Anti-Abuse Working Group want?
- What is the long-term goal?
- How would you like us to proceed?

# Questions
